Kelly**

1

Access the Support: Make use of the support available to you in college. Register with the Disability/Access Service and make contact with the Disability Officer.

2

Enjoy the Social Side: College is a haven of clubs, societies & voluntary opportunities. Getting involved gives you a chance to have your voice heard, improve your CV and, most importantly, have fun.

3

Get involved in Student Politics: Not only will student politics help you keep in touch with what's happening on campus, it'll give you practice advocating for things you're passionate about.

4

Make a Study Schedule: There is a lot of new changes in your first year of college. Making a study schedule will stop you from falling behind in your classes.

5

Ask for help: Find out who is your Student Union, class rep. and course coordinator. Don't be afraid to ask for help if you run into any problems.
